DRIVER RFID CARD	REVENUE COLLECTION & DIRECT DEPOSIT	ADVANCED LOAD MANAGEMENT
LOCATION ACCESS CONTROL	TIERED PRICING	DRIVER & HOST SUPPORT
DRIVER ACCESS GROUPS	TIME-OF-USE RATES	REMOTE TROUBLESHOOTING

SOFTWARE FEATURE DESCRIPTIONS

MOST ROBUST SOFTWARE IN THE INDUSTRY!

ANALYTICS & REPORTING
View charging session data, utilization, revenue, and sustainability metrics. Download reports and analytics for utility or ESG reporting.

DRIVER ACCESS

DRIVER RESERVATIONS
Drivers can be sure a charger is available by reserving in advance.

DRIVER RFID CARD
Charge with the tap of a RFID card. AmpUp supports adding charging to a RFID the driver already has (for example, a building badge).

LOCATION ACCESS CONTROL
Publish charging stations to the AmpUp mobile app, Google Maps, and PlugShare, or keep them private.

DRIVER ACCESS GROUPS
Control charger access and pricing for specific groups of drivers, including free or subsidized charging.

TIME-BASED ACCESS CONTROL
Change public access based on the day and time for each location.

SESSION LIMITS & IDLE FEES
Encourage drivers to share charging stations by imposing time limits or charging idle fees for drivers staying after a certain time period.

REVENUE GENERATION

REVENUE COLLECTION & DIRECT DEPOSIT
Set rates by time or energy used. Revenue collected from drivers' charging sessions is remitted via direct deposit to a single bank account.

TIERED PRICING
Set two-tier charging rates with one price for initial time period or energy usage and a different rate thereafter.

SOFTWARE FEATURE DESCRIPTIONS (CONT.)

TIME-OF-USE RATES
Manage pricing based on the time of day to accommodate for different utility rates or driver demand.

LOCATION & ACCOUNT MANAGEMENT

MULTI-SITE MANAGEMENT
Manage multiple locations from one dashboard as unique areas with different settings.

MULTI-USER ACCOUNT
Enable multiple users to see analytics, download reports, and manage charging by adding them as a manager or operator to the account.

ADVANCED LOAD MANAGEMENT
Set an energy load cap that limits maximum power available across a location to reduce the load on the panel.

PREMIUM HOST SUPPORT

DRIVER & HOST SUPPORT
Drivers have 24/7 access to AmpUp's help desk.
Host support 8-8 ET via phone call, help desk and chat.

REMOTE TROUBLESHOOTING
Get alerts, diagnose problems, and remotely restart chargers.
