

VEHICLE CHARGERS

EV CHARGING CABLE RETRACTOR

A cable management solution for electric vehicle charging stations. Helps extend the life of the cables by keeping them overhead and off of the ground.

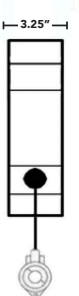

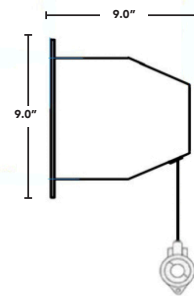

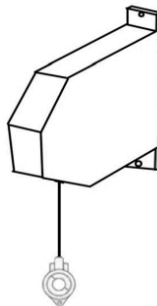

- > Effortlessly draw back cable with the spring loaded tether.
- > Convenient, compact design for clean and safe management of the charging cables.
- > Flexible mounting options include, wall mounting, pole mounting or pedestal/ground installation.
- > Durable steel housing.
- > Tested and rated for 5-6lb pull on a 48A cable.
- > Life cycle expectation: >8,000 pulls/retractions.
