DISTRIBUTOR/ESCO
DONOVAN ENERGY

INSTALLER
DONOVAN ENERGY

PROPERTY MANAGER
NATIONAL COMMERCIAL
PROPERTY MANAGER

OPERATING

The end user wanted to use level 2 chargers given speed of charge. Our up-time and customer support made the decision easy.

INSTALLING

Donovan Energy installed a new transformer & panel, ran conduit to parking spots & mounted the chargers. The installation process was smooth and painless.

CONNECTING

Donovan Energy used a cell booster given the poor cell signal within the garage. The chargers are always up and running for the drivers.

"We have had success with AmpUp in the past and wanted to stick with a trusted partner." — Donovan Energy 😊
